

JOB TITLE: Analyst Intern**DATE POSTED:****COMPANY DESCRIPTION:**

Founded in 2009, One Energy is an industrial power company that is decarbonizing manufacturing, enabling customer control, and building the customer-centric power grid of the future. The company provides physical solutions including *Wind for Industry*® and ManagedHV™, as well as analytics and commercial offerings to enable end users to fully customize their energy experience. One Energy is a Utility 2.0 company and is the largest installer and owner of behind-the-meter wind energy in the United States. Learn more at www.oneenergy.com

1 | SUMMARY OF FUNCTIONS:

The Analyst Intern will support technical matters related to the development of *Wind for Industry*® projects. This position will be within the Project Planning and Technology department and will also have the opportunity to work with the Research and Development (R&D), Finance, and Regulatory departments.

2 | ROLES AND RESPONSIBILITIES:

- Research and assess the viability of potential new *Wind for Industry*® customers
- Help perform due diligence and create technical reports to support project development
- Use established financial models for projects ranging in size from \$3 million to \$30 million
- Analyze wind resource data and aid in energy production estimates
- Utilize software to assist in the development process (ArcGIS, SketchUp, Continuum, etc.)
- Interpret and communicate technical information within the company

3 | ORGANIZATIONAL RELATIONSHIPS:

Reports to the Head of Project Planning and Technology; no supervisory responsibilities

4 | SKILLS AND EXPERIENCE:

- In progress of obtaining a Bachelor's or Master's degree in engineering, meteorology, computer science, mathematics, economics, finance, or other relevant field
- Excellent interpersonal communication skills, work ethic, and ability to work in an entrepreneurial, unstructured environment
- Patience, persistence, and creative problem-solving abilities in groups as well as independently
- Willing to explore concepts outside of their chosen field
- Significant experience in data analysis using Microsoft Excel; other analysis software experience a plus, such as ArcGIS
- Experience with 3D Drawing software, financial modeling, instrumentation, or computer programming a plus

REMOTE WORK:

One Energy hires brilliant and exceptional people, and we expect (and empower) our team members to make good decisions for the company. That is why we have an unlimited vacation policy. That is why we pay top of class. That is why we are consistently named a top workplace by media outlets. We trust our employees. We also hire individuals who want to work in the exciting and collaborative environment of our office. We believe there is no substitute for on-site engagement. If an employee occasionally needs (or wants) to work from home, or Australia, we trust them to evaluate the decision and to act accordingly. If life circumstances shift down the road and you require additional flexibility, we are generally flexible. That said, if you are already counting the days you plan to be at home each week then One Energy is not the right place for you.
