

# ELECTRIC SEMI-TRUCK CHARGING

One Energy aims to provide fleet operators with all the tools necessary to test electric trucks before transitioning their fleets.

## One Energy's Electric Semi-Truck Program

This program presents a unique opportunity for participants to actively engage with and test a variety of electric semi-trucks within their operational settings. Our goal is to collect comprehensive feedback from all stakeholders, ranging from the drivers to the fleet owners, covering numerous aspects such as cost-effectiveness, user experience, and overall driver satisfaction.

## Who is this Program For?

This trial program is designed for businesses that operate fleets. We welcome participants who are eager to explore the benefits and practicalities of integrating electric trucks into their existing fleets.

## What Does this Program Entail?

Participants of One Energy's Electric Truck Trial Program will have the opportunity to test various types of electric semi-trucks in their day-to-day operations. One Energy is proud to provide the vehicle and the necessary charging infrastructure at no cost to the participants.

## How Can I Participate?

If you are a semi-truck fleet owner and are interested in participating in the Electric Semi-Truck Trial Program, please contact One Energy at [BEV@oneenergyllc.com](mailto:BEV@oneenergyllc.com). Our team will guide you through the registration process and provide you with all the necessary details to get started.
